

⇒ Date and time → IO (file handling) → Java new feature

→ Try with resources → JDBC

21/11/2023 } int a = 10; String s1 = "Java";
21:05:44 IST } Integer

{ java.util.*
Date
java.sql.*

Joda.org:

{ New Date & time API } Java 8 → 1.8

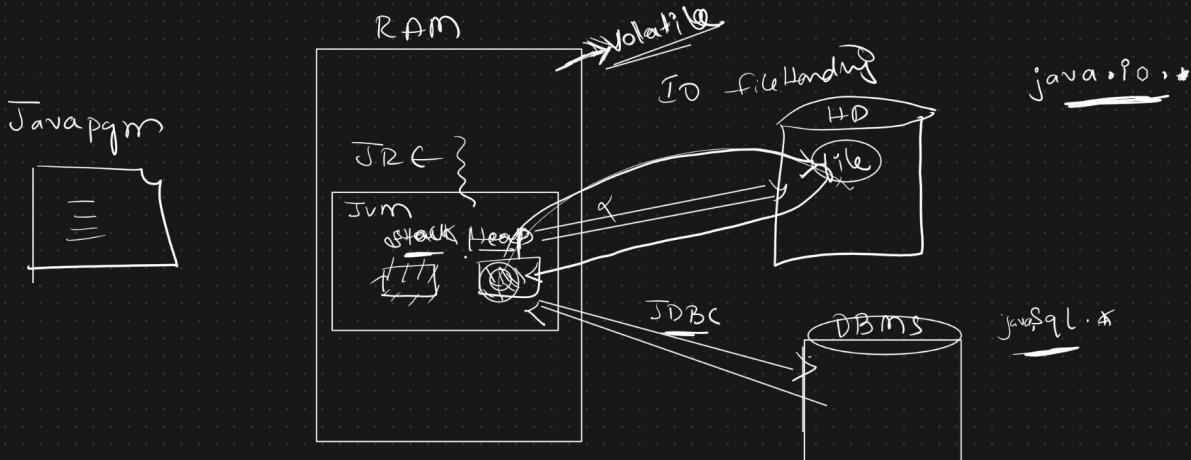

{ Joda API, ~~Joda~~ Joda time API, New Date & time API }

{ java.time.* }

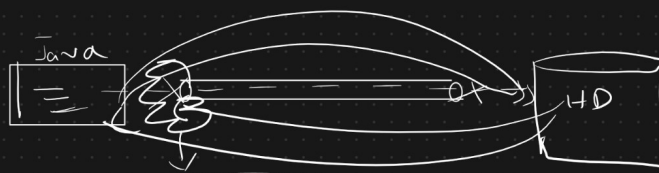

IO → Input Output operation ⇒ File Handling :-

⇒ { File ⇒ character

{ Streams ⇒ InputStream OutputStream }

binary format / byte ⇒ Stream ⇒ InputStream OutputStream

System.in

System.out.println();

```
class Flipkart {
    static FedEx ex;
```

```
    BufferedWriter {
        BufferedReader {
```

```
class Fedex {
    void println() {
```

}

Flipkart.ex.println();
